

Stunts Controls (PS5/Xbox)

On Playcall Screen:

- HOLD the button corresponding to the desired playcall.
- Use directional pad or Left Stick to HIGHLIGHT desired stunt.
- RELEASE the playcall button to call the desired play with specific stunt.
- Note: Only stunts compatible with the defensive front will be shown.

In this image, we are **HOLDING** Triangle for our desired playcall (Dime Blitz 2) and then using the directional pad (or Left Stick) to select the desired Stunt. **RELEASING** Triangle then selects the stunt, Right Tempe 4 Man.

Pre-Play:

- Press Left (D-Pad) then R1/RB for Stunt.
- Press the button corresponding to desired stunt.
- Note that you can use D-Pad left and right to scroll through all available stunts.
- Note: Only stunts compatible with the defensive front will be shown.

In this image, we pressed Left on the Directional Pad then R1/RB for Stunts. Press the corresponding button for the desired stunt. If available, more Stunts will be shown and selectable by pressing Left or Right.

When to call: Stunts work best on passing plays. Unless the stunt develops quickly, a stunt can create an opening for a running back. Begin by using on obvious passing downs to try and create pressure on the quarterback. Use in conjunction with blitzing linebackers for extra pressure.
